Energy Class A

Powered by
Photovoltaics & Thermal Insulation

Smart
Energy Living

At Ecorise, energy efficiency is a top priority, ensuring lower long-term maintenance costs for our clients. To achieve this, we integrate advanced solutions into every project:

Photovoltaic Systems: Apartments 301, 302, 303 and communal areas are equipped with dedicated photovoltaic systems, reducing electricity costs and reliance on the grid.

Thermal Insulation of Façade: The entire building façade is insulated with 8 cm of polystyrene, significantly improving thermal performance, minimizing heat loss, and ensuring comfortable indoor conditions year-round.

Roof Insulation: The roof is insulated with 10 cm of polystyrene, offering enhanced protection against heat transfer and contributing to overall building energy efficiency.

Energy Class Certification: Thanks to these measures, the building is certified as Energy Class A, ensuring top performance in energy savings and sustainability.

Aluminium Doors and Windows: Crafted with premium thermal break aluminum, this block combines sleek design with superior insulation for year-round energy efficiency and comfort.

Carpentry

The kitchen is designed as the heart of each home, combining generous space with refined finishes.

High-quality melamine cabinetry pairs seamlessly with a granite countertop and backsplash, creating a stylish yet durable setting that elevates everyday living and adds a touch of elegance to the entire residence.

Presurized System:

- Enjoy consistent water pressure, ensuring your daily comfort.

Windows & openings

All exterior openings are fitted with aluminium frames from the latest series (e.g., MU144 by Muskita), a system known for its modern design, strength, and long-lasting performance.

Double Glazing

Thermal Break Technology

Security & Durability

Slim profiles

This combination of advanced technology and elegant design ensures that residents enjoy maximum comfort, security, and energy efficiency in every apartment.

Counterop and backsplash €200/m

Selections available from top-quality granite options

Kitchen

- High quality melamine cabinetry.

Custom Wardrobes

- Bedrooms feature laminated wardrobes, manufactured according to the architectural dimensions and design.

Internal doors

- All internal doors are finished with high-quality laminated surfaces, offering durability, easy maintenance, and a sleek modern look.

Damp proof and Waterproofing

novērra
residences

-  Foundation
-  Roof - Roof Garden
-  Showers
-  Covered verandas

Waterproofing of the structure is considered highly critical and has been addressed with specialized systems at all levels of the building:

Foundation: Vertical waterproofing of the foundation is carried out using Mapelastic Foundation.

Roof: A 4 mm thick Extrabit P200 waterproofing membrane is applied to the roof slab.

Verandas & Roof Garden: All verandas and the roof garden are waterproofed beneath the tiling with Sikalastic®-1K applied in a minimum thickness of 2 mm.

Bathrooms & Showers: Special attention is given in wet areas. Showers are treated with two coats of Unolastic waterproofing, incorporating a reinforcement mesh between coats. Importantly, the coating extends not only to the floor but also to one meter up the surrounding walls for enhanced protection.

Sanitaries and fixings

-  Premium fittings
-  Walking showers
-  Lasting Quality
-  Shower cabinets

All apartments are equipped with premium sanitary ware and fittings from well-known international brands, with a total value of **€3,000** per apartment. These selections combine elegance and durability, ensuring both refined aesthetics and long-lasting performance — a balance that defines true quality living.

Latest Technology Elevator

Luxurious, latest-technology passenger elevator by a top European brand (KONE / OTIS / Kleemann or Equivalent), engineered to EU standards for safety, comfort, and energy efficiency.

Latest Technology Elevator

Storage Areas

Storage Solutions

At Ecorise, we understand that functional storage is essential for modern living. That's why every apartment is equipped with thoughtfully designed solutions that combine practicality with convenience:

External Storage Room

Generous Wardrobes

Additional Storage Options

With these features, residents benefit from a home that is not only beautiful but also highly functional and well-organized.

Bathroom Tiling

Ceramic tiles with dimensions 120x60cm or 100x100cm will be placed, offering a modern aesthetic and durable surface finish.

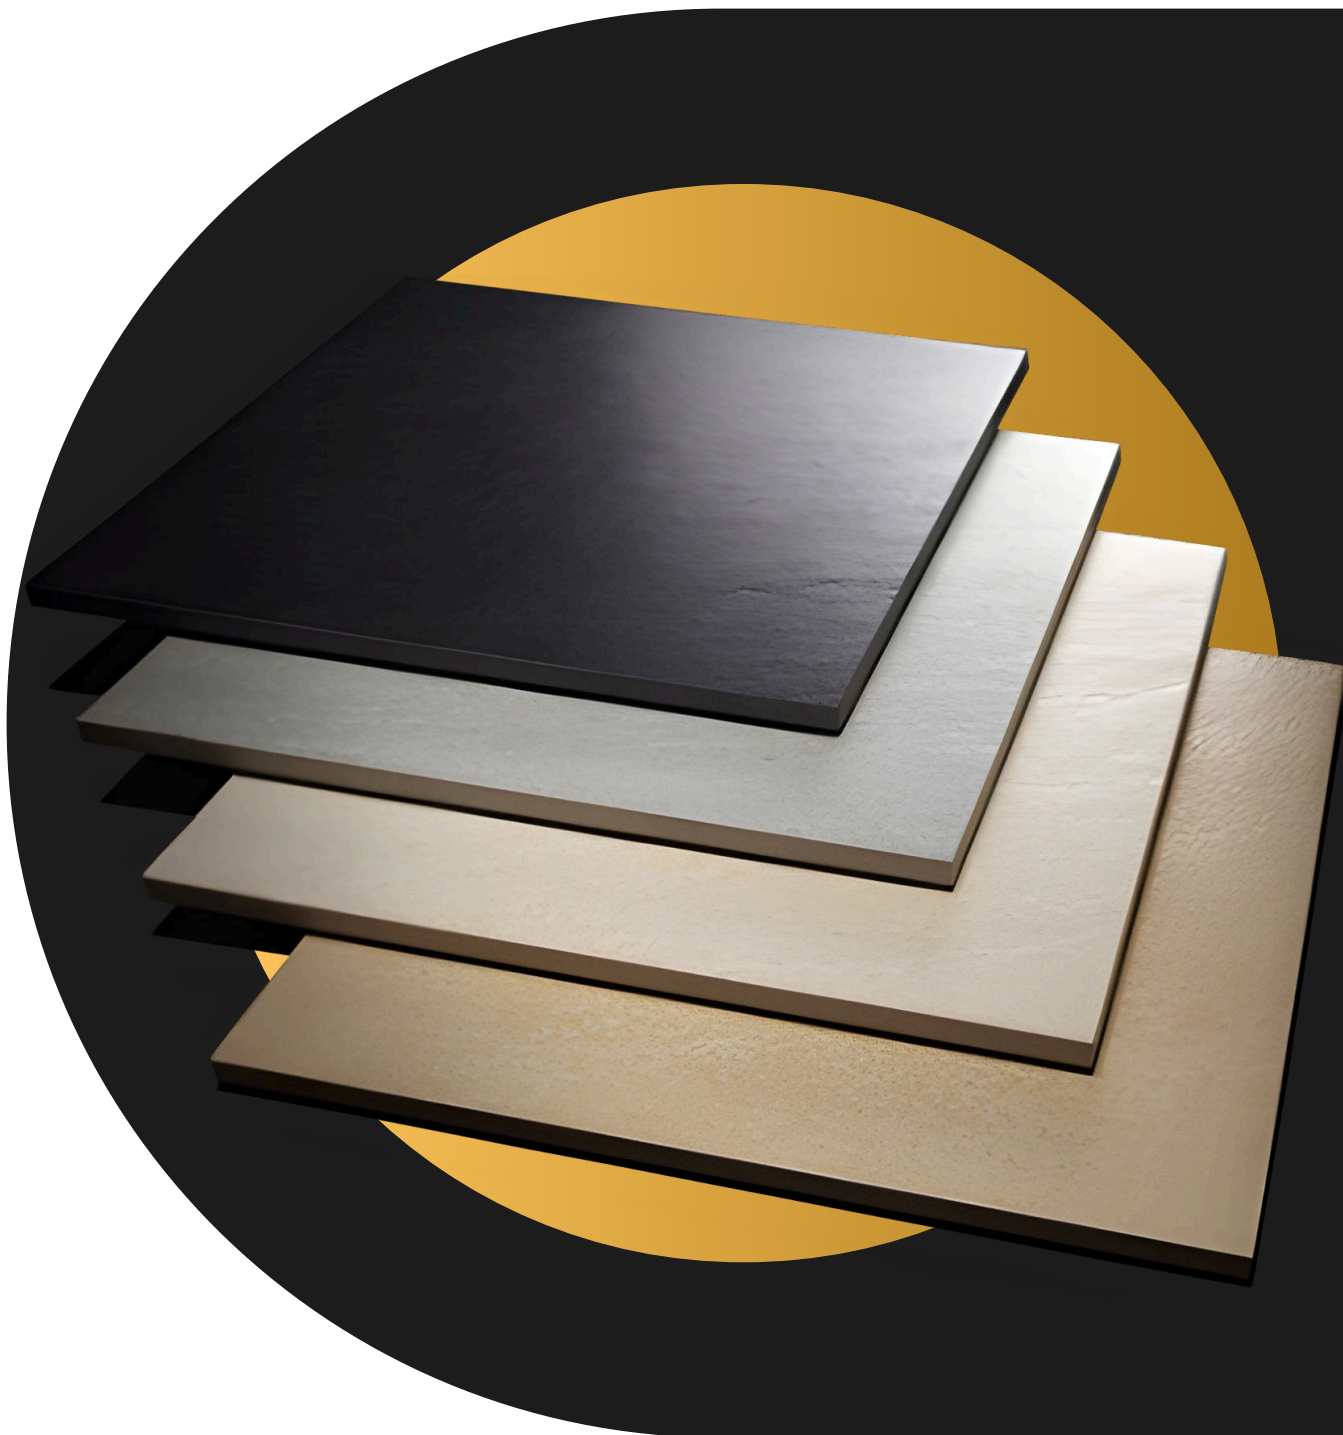

Valued of
€25/m2

Flooring

Ceramic tiles in dimensions of 120 × 60 cm or 100 × 100 cm are selected for the main living areas, kitchens, verandas, and bathrooms, enhancing the sense of space with a sleek, modern aesthetic while providing a durable, easy-to-maintain surface.

For the roof garden, 60 × 60 cm ceramic tiles are applied, ensuring proper inclination and water drainage while maintaining a high-quality finish.

Flooring

Valued of €25/m2

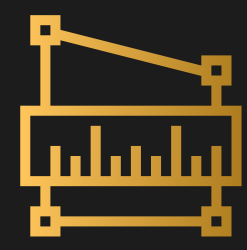

Verandas | Roof Garden | Bathrooms
(60x60 ceramic tiles)

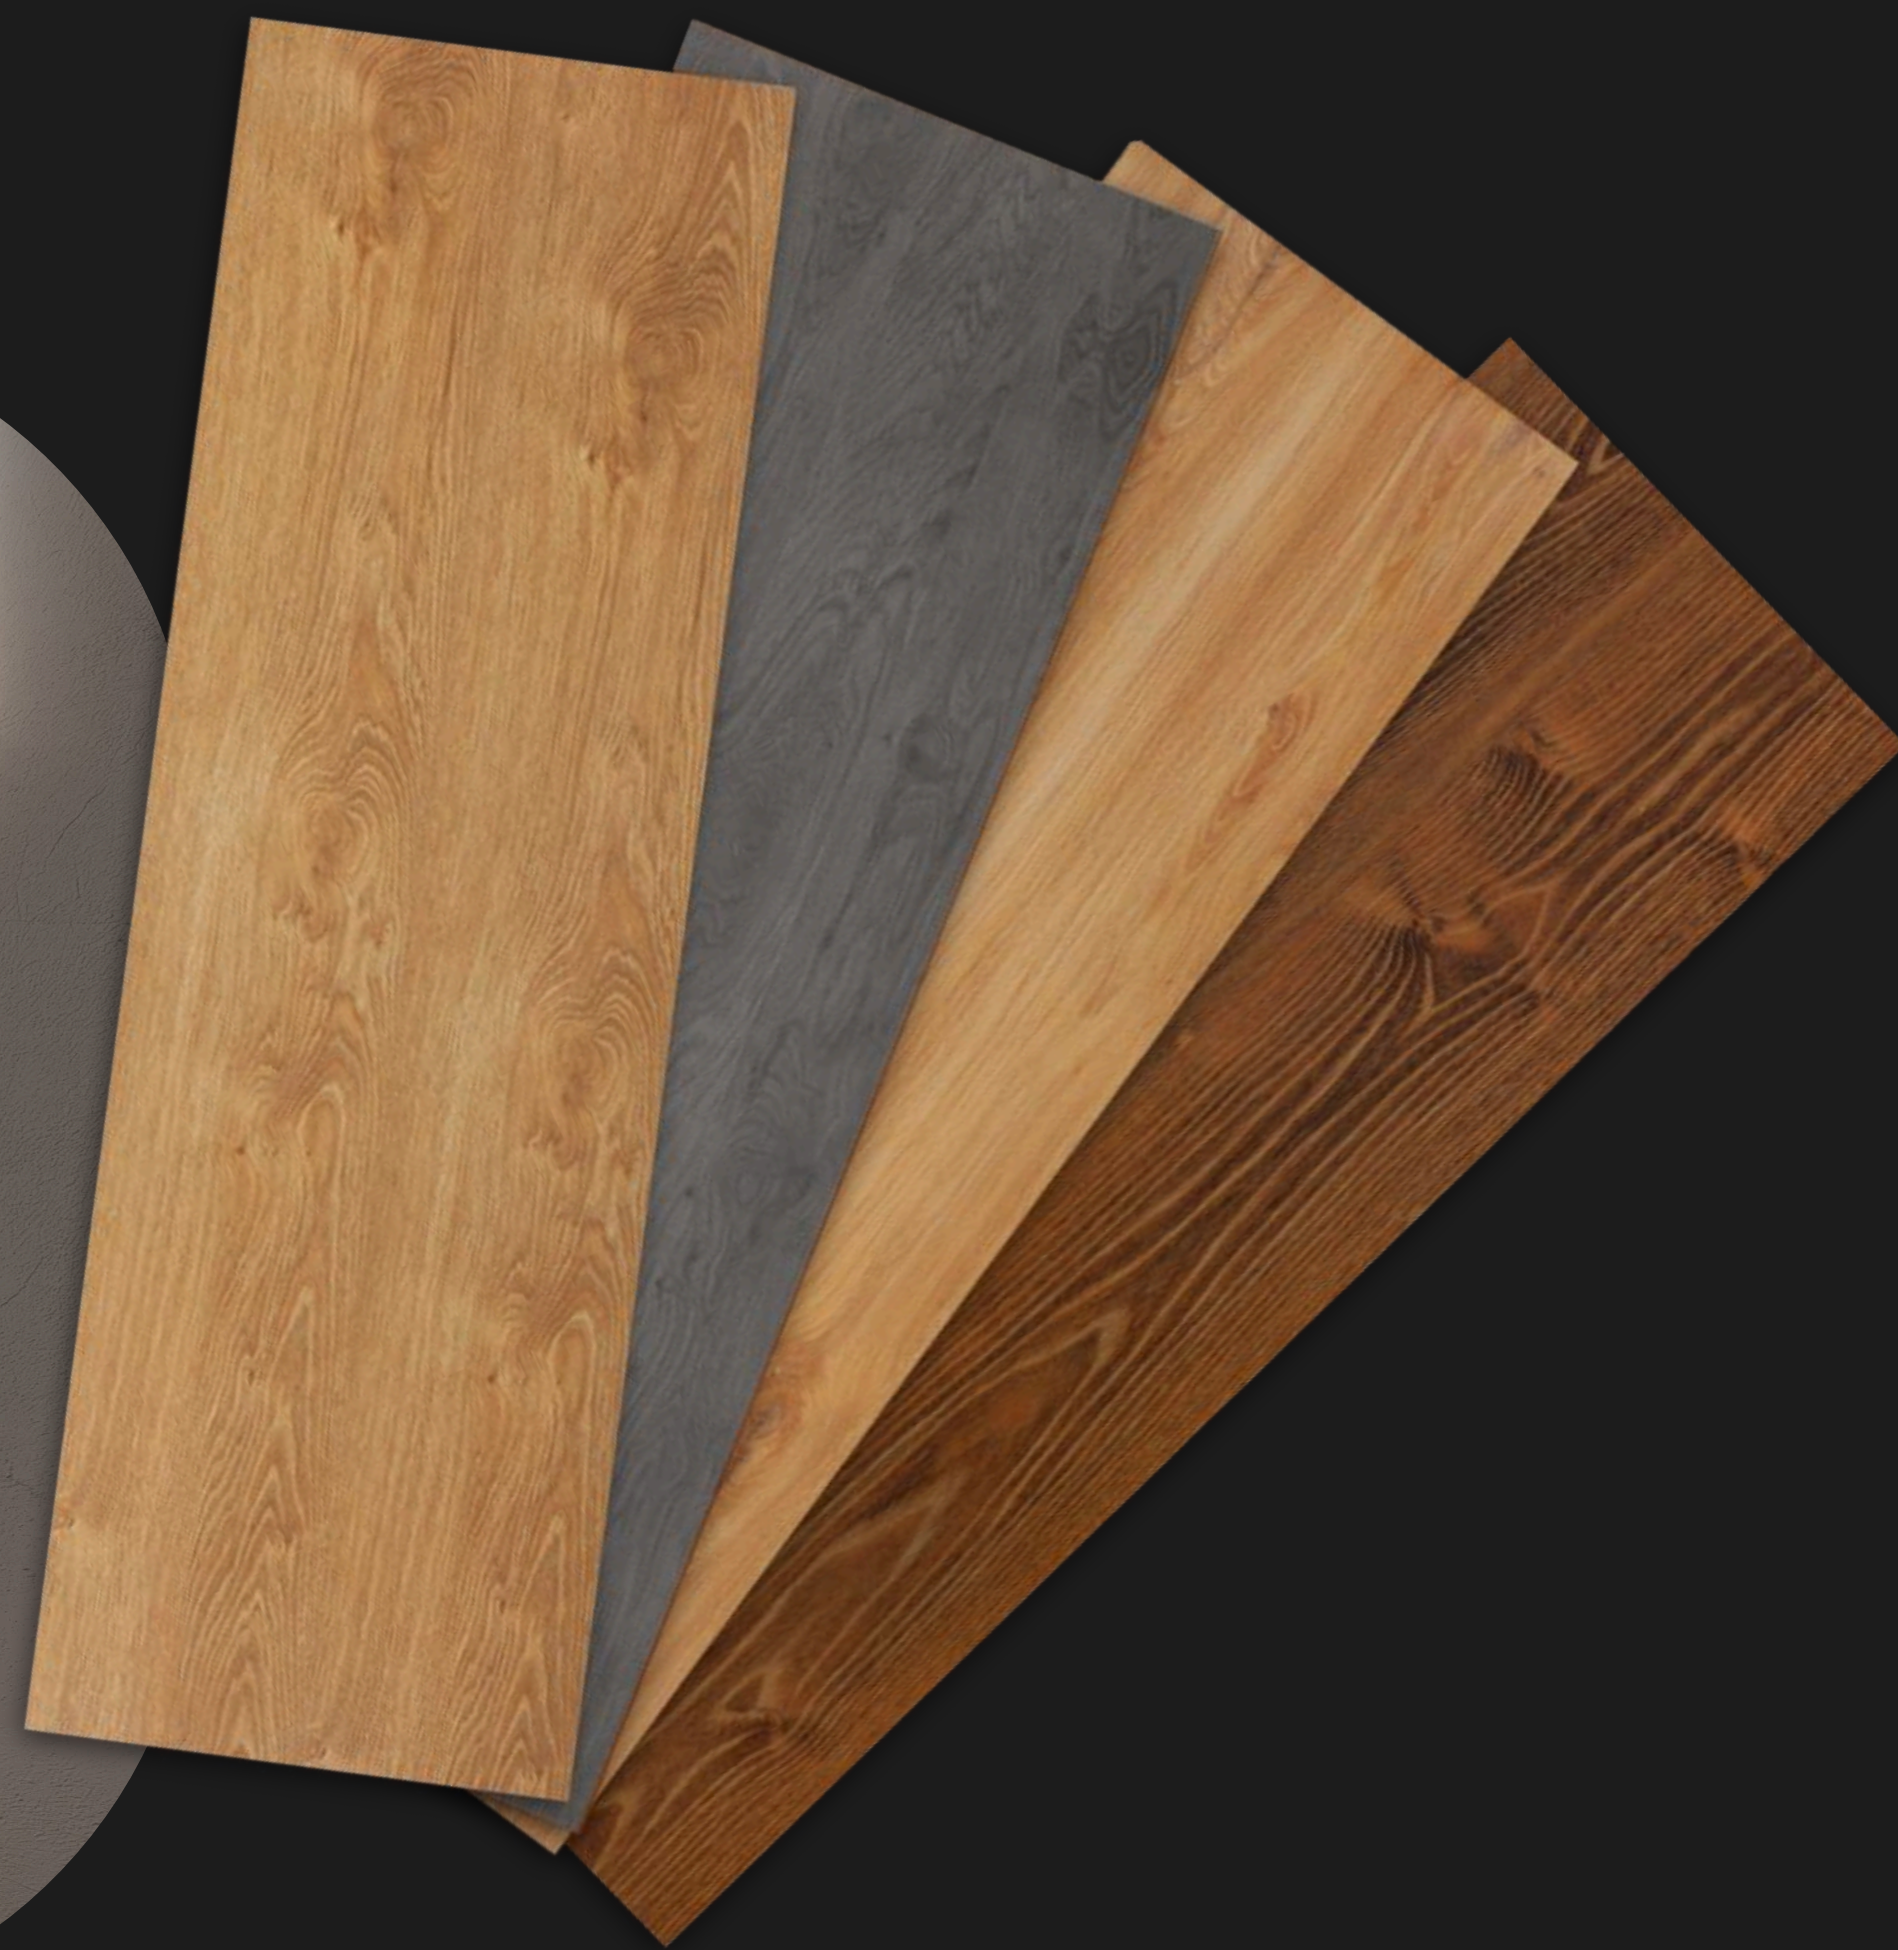

Bedrooms

Laminate parquet with matching skirting

To enhance comfort and create a warm, welcoming
ambiance, all bedrooms are fitted with laminated parquet
flooring. This choice not only provides a natural and elegant
look but also improves the sense of coziness within the
living spaces. The parquet is complemented by matching
skirting, ensuring a seamless and refined finish.

Valued of €30/m²

Lights

Elegant lighting installed throughout all common areas,
verandas, and showers, ensuring comfort, safety, and
modern ambiance.
