BATHROOM WALLS & FLOORS | TACOMA SAND 60X120CM

DESIGN OVERVIEW

PARQUET FLOORING CLAP 3D | RUB

CLAP 3D!

Clap!3D is a collection of interior floorings with hyper-realistic details and textured wood grain.

MAX BOARD SIZE: 1800 X 228 X 6 mm

MOISTURE AND STAIN RESISTANT

The stone component in the internal mix makes Clap! resistant to moisture and the absorption of liquids and oily substances: stains and dirt can be quickly removed with a simple damp cloth.

RESISTANT TO WATER AND HUMIDITY

Thanks to the wear layer and its formula containing stone dust and polymers, Clap!3D is much more resistant to accidental damage than other indoor flooring systems.

UNDERFLOOR HEATING

Clap!3D is perfect for installation over traditional radiant heating and cooling systems without hindering efficiency.

SILENT TREAD

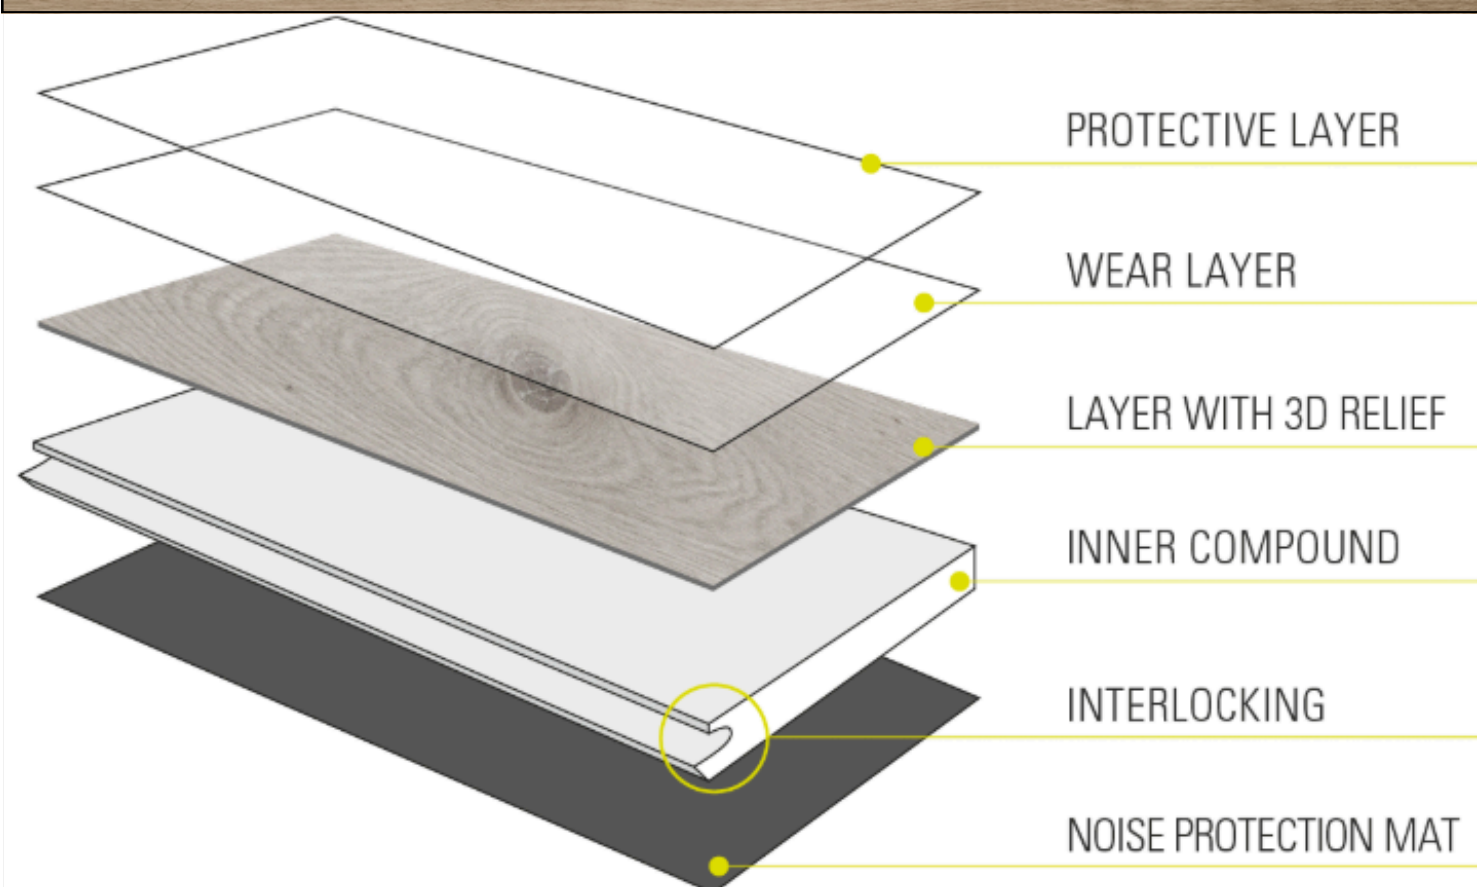

Clap!3D solves the irritating sound of footsteps typical of laminate, LVT and parquet flooring thanks to the presence of an anti-noise matting conveniently integrated into the slats.

RAPID INTERLOCKING INSTALLATION

By offering profiles with integrated matting, the entire line of Clap! cladding guarantees rapid and immediate installation, without the prior placement of an underlay, and can be walked on immediately after installation without the need for drying times.

INSTALLATION IN FURNISHED HOMES

The immediate interlocking installation system, which is rapid and non-invasive, allows Clap!3D to also be installed in furnished homes, without having to completely clear the rooms.

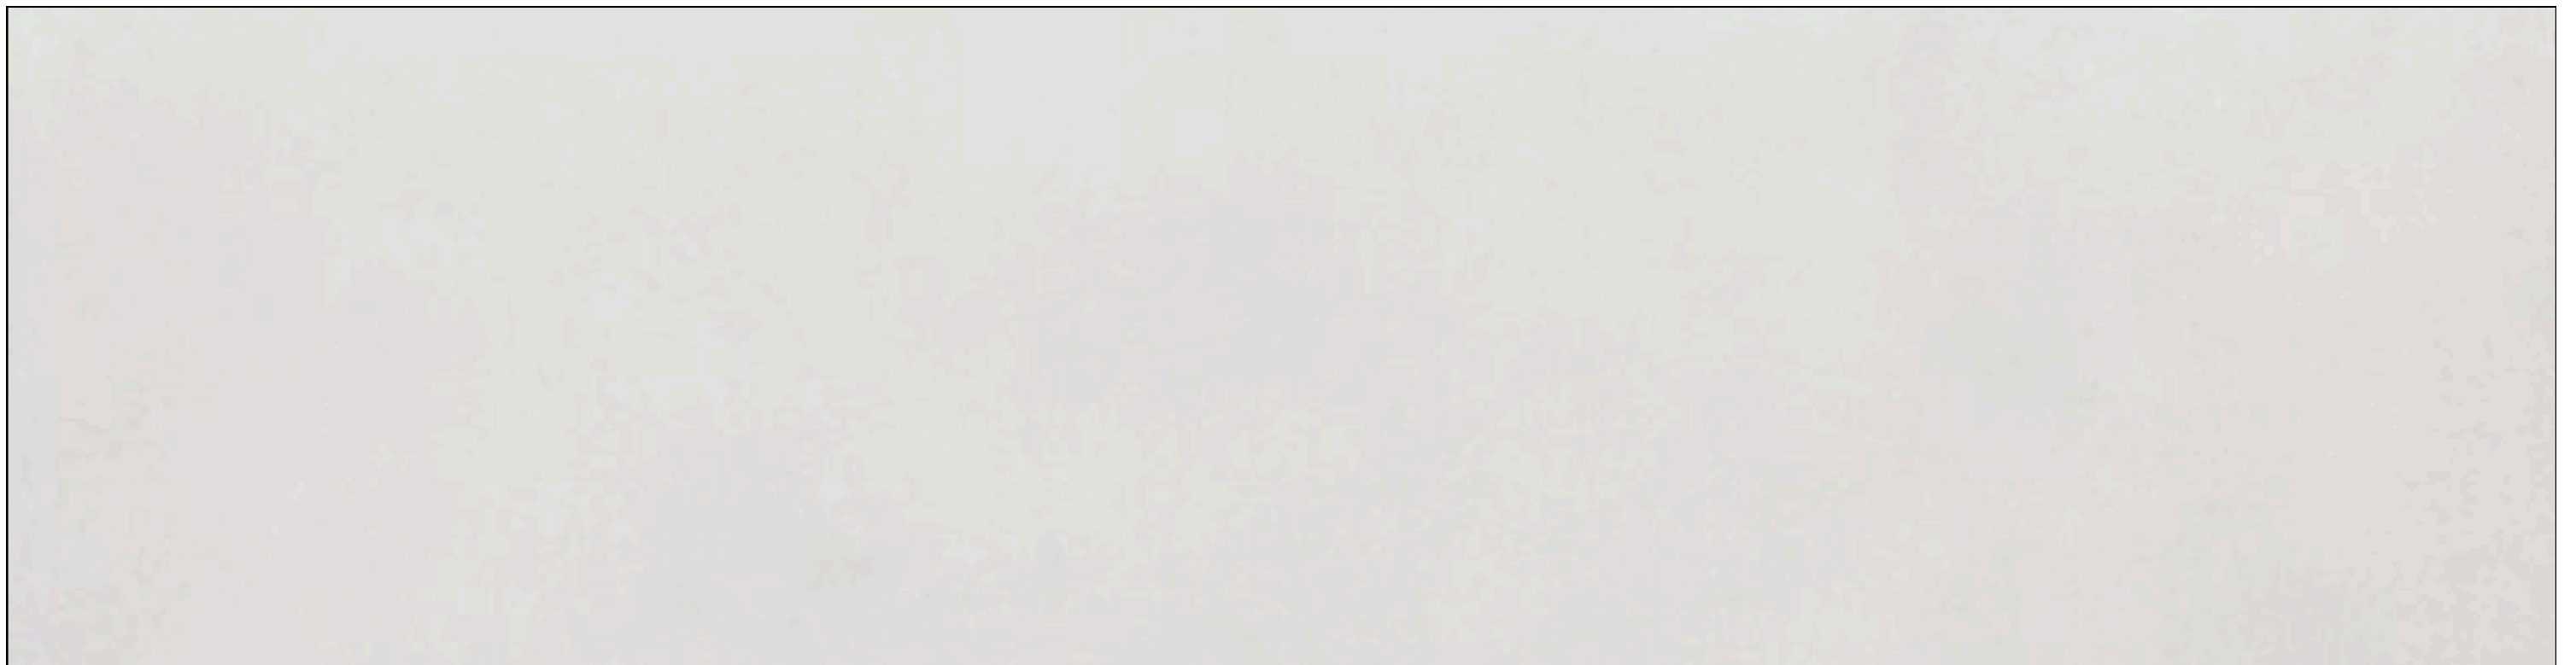

CERAMIC TILES

BATHROOM WALLS & FLOORS | TACOMA SAND 60X120CM

VERANTAS | BATISTA DST 60X60CM
